EDUCATION

Mohamed Cherif Messadia University, Souk Ahras

Sep 2023 – Jul 2025

Master's in Software Engineering — Graduated top of the class

Specialization in Android development, software architecture, and full-stack applications

PROFESSIONAL EXPERIENCE

Dzexpert

Jun 2025 – Present

Software Engineer

- Enhanced mobile app performance, reducing load times by 30% and improving user engagement.
- Designed and implemented new features based on iterative user feedback, increasing retention by 15%.
- Mentored junior developers on clean architecture and best practices.
- Contributed to Agile development cycles and detailed documentation of key updates.

Nutri Saha

Feb 2025 – May 2025

Software Engineer

- Led front-end redevelopment of a multilingual web platform using **HTML, CSS, JavaScript, Figma**.
- Applied HCI principles to improve accessibility and UX across 4 languages.
- Designed mobile app architecture using **Kotlin Multiplatform / React Native** with MVC/MVVM patterns.
- Delivered projects under tight deadlines coordinating directly with stakeholders.

Shabakett Systems (Remote)

Jul 2024 – Sep 2024

Mobile Developer Intern

- Developed new mobile app features with **Kotlin, Jetpack Compose**, improving usability and performance.
- Participated in Agile sprints, providing technical solutions and documenting key functionality.

PROJECTS

Nutri Saha Platform (Website + Mobile App)

Feb 2025 – May 2025

Technologies: *HTML, CSS, JavaScript, Figma*

- Built a responsive, multilingual platform improving UX and accessibility across 4 languages.
- Delivered under tight deadlines for a major company launch with close stakeholder collaboration.
- Applied component-based design principles for scalable and maintainable frontend architecture.

Home Service App (Mobile)

Jan 2025 – Present

Technologies: *Kotlin, Jetpack Compose, KMP, Retrofit, MVVM*

- Developed a modular service booking app supporting real-time updates and seamless navigation.
- Implemented state hoisting and lifecycle-aware data collection for optimized performance.
- Designed reusable composables, click handlers, loading indicators, and network-aware behaviors.
- Integrated APIs to display dynamic user data efficiently with 'LazyColumn' and detail views.

TECHNICAL SKILLS

Languages:

Kotlin, Dart, JavaScript, HTML, CSS, PHP, SQL

Frameworks & Libraries:

Jetpack Compose, Flutter, Kotlin Multiplatform (KMP), Express.js, Retrofit, Supabase, Node.js

Tools & Platforms:

Git, Postman, Insomnia, DBeaver, Figma, Android Studio, VS Code

Architecture & Patterns:

MVVM, MVC, Bloc/Cubit, Clean Architecture, API Integration, State Management

Databases:

MySQL, Supabase, PostgreSQL

Certifications:

HackerRank - Software Engineering HackerRank - SQL Basic

SOFT SKILLS & LANGUAGES

Languages: English, French, Arabic

Soft Skills: Communication, Collaboration, Problem Solving, Mentorship
